

Warehousing and Distribution Company Achieves 100% Shipping Accuracy

About the Company

The organization is a Midwest-based, third-party warehousing and distribution business. The company operates a 500,000-square foot storage warehouse, serving parts suppliers, retailers, manufacturers and other businesses in the region.

The Challenge

The warehouse operation sought the most cost effective methods to maximize efficiency and optimize labor productivity. They needed to easily manage business levels for hundreds of clients and for more than 50,000 different stock numbers.

About the Company

The company uses ConveyorWare for all functions for warehouse operations, including physical inventory, shipping, receiving, and picking, as well as management features such as queries, reporting and barcode labeling.

The Solution

- The company's clients benefit from 24/7, real-time reporting to track unique barcode orders and inventory.
- The system helps manage daily activity for all clients. Especially helpful are intuitive and robust reporting tools.
- The convenience and accuracy of ConveyorWare Business Distribution Software lets the warehouse deliver 100% shipping accuracy.
